Telegram: @dimon\_frolkov

City of Residence: Moscow

Date of Birth: 21.10.1992

GitHub: <https://github.com/dmitfrol152/>

**Frontend Developer****Skills**

- JavaScript ES6+ (incl. classes, promises, modules)
- React, Redux / Context
- TypeScript
- React-Hook-Form, Zod
- Working with third-party API
- Build configuration with Vite+Webpack
- HTML5, CSS3
- Node, Express, SQL (MongoDB / PostgreSQL)
- Vue, Pinia
- Next / Nuxt
- Jest / Cypress
- Version control: Git
- Responsive, cross-browser, semantic web development
- TailwindCSS, MUI
- Working with designs in Photoshop, Figma
- English language, level B1

**Experience****Project-based Frontend Developer**

**Frontend Developer**, Feb 2024 – Present

Stack: JS, HTML, CSS/SCSS, React, Redux / Context, TypeScript, Tanstack Query, React-Hook-Fork, Zod, Jest, Vite

Implemented a number of projects:

1. I developed an MVP project: a web service for job seekers that centralizes job search management using an interactive kanban board, integration with the hh.ru API, and a dedicated Telegram bot for notifications. It ensures data confidentiality, comprehensive vacancy management (adding, editing, filtering, exporting), and synchronization of information between the website and the bot, utilizing Supabase and OAuth authorization (custom design)

Stack: React, TS, Vite, Tanstack Query, React Context, React-Hook-form, Zod, TailwindCSS, supabase, function edge, github actions (workflow), SQL, OAuth auth (gitHub, gmail), FSD architecture, hello-pangea/dnd, clsx, framer-motion, react-toastify, recharts, Suspense, lazy loading, bot father

2. Personal portfolio website on React, TS, SCSS Module (custom design)

<https://dmitry-frolkov-developer.ru/>

3. Streaming movie service on React, TS, SCSS Module

<https://marusya.netlify.app/>

<https://github.com/dmitfrol152/Projects/tree/main/React/Marusya>

4. Travel blog on React, TS, SCSS Module

<https://all-about-travel.netlify.app/>

<https://github.com/dmitfrol152/Projects/tree/main/React/Travel>

5. Custom audio player on React, TS, SCSS Module

<https://audioplayer-self.netlify.app/>

<https://github.com/dmitfrol152/Projects/tree/main/TypeScript>

6. Notes website with Node, Express, PostgreSQL

<https://projects-production-0271.up.railway.app/>

[https://github.com/dmitfrol152/Projects/tree/main/Node/Note\\_full\\_project](https://github.com/dmitfrol152/Projects/tree/main/Node/Note_full_project)

7. Books website on Vue, Pinia

<https://bookslist-vue.netlify.app/>

<https://github.com/dmitfrol152/Projects/tree/main/Vue/Books>

Other projects can be found at:

<https://github.com/dmitfrol152/Projects> or <https://dmitry-frolkov-developer.ru/>

**AbcEx, Moscow**

**Frontend Developer (React)**, February 2025

Stack: React, TypeScript, MUI

Implemented a number of projects:

1. Implemented the admin menu within the company, maintained the code, added new features, and was the sole responsible person
2. Developed user interfaces
3. Fixed bugs
4. Fixed bugs
5. Maintained existing code
6. Interacted with PM and backend
7. Collaboration: Discord, tasks: Jira

**INDIVIDUAL ENTREPRENEUR (IP) FROLKOV DMITRY VIKTOROVICH, MOSCOW**

2018 – Present

Launching projects in visualization, sales, entertainment, construction services, team management up to 5 people.

**Siocreation, Moscow**

**3D VISUALIZER,**

December 2020 – December 2021

Creation of high-quality 3D visualizations and models, contributing to the successful realization of design projects in 3Ds Max.

**AO "Corporation "VNIEM", Moscow**

**Ufimskoye Motor-building Production Association (UMPO), Moscow**

**MECHANICAL ENGINEER-DESIGNER**

April 2016 – November 2019

Participation in the development of space projects, applying design and technical analysis skills. Development of design documentation for complex mechanical systems.

## Education

**Moscow Aviation Institute (NIU), Moscow**

Engineer, 2010 - 2016

## About Me

A responsible frontend developer of modern web applications. I am constantly deepening my skills in the technology stack I use. I love to learn and am not afraid to take on responsibility. I am also improving my skills in related areas, such as backend development, and mastering new stack technologies.

I gain additional knowledge and skills from various web sources, books, and conversations.

Since my current focus is on clean and understandable architecture, my most recent book was "Clean Architecture" by R. Martin. I am constantly rereading learn.javascript.

My strengths include teamwork and communication skills: I easily find common ground with colleagues and clients; the ability to independently seek out resources that help solve a problem or improve my professional skills; time management and planning: I can organize tasks into stages, set goals, and adhere to a schedule; experience in various disciplines: my skills will help the project grow and develop; flexibility and learning ability: I quickly master new technologies and tools, enjoy learning new things, experimenting, and applying them in practice; Self-organization and initiative: I can stay focused on goals and am not afraid to take responsibility.

I am considering internships, office work, remote work, and hybrid options.
